IMPACTS OF THE BLUEPRINT FOR AN AI BILL OF RIGHTS

The Blueprint for an AI Bill of Rights (AIBoR) was developed to provide a foundation for a comprehensive, rights-based policy framework that could be used by a wide array of policy and regulatory entities. In less than one year, we have seen its influence across state legislatures, in federal agencies, and through executive actions. Examples of the impact the AIBoR has had on policy since its launch in October 2022 include:

DATE	TITLE	WHAT IT DOES
February 2023	EO 14091	Requires federal agencies to protect the American public from "algorithmic discrimination."
March 2023	CA AB 331	Adapting the definition provided by EO 14091, the proposed bill prohibits "algorithmic discrimination" in CA state law.
April 2023	Joint Statement by EEOC, CFPB, DOJ, FTC	Clarifies federal agency commitments to enforce against discrimination and bias in automated systems.
May 2023	EEOC Guidance on AI and Title VII	Clarifies the application of Title VII to algorithmic decision-making tools used in employment selection procedures, e.g., hiring, termination, promotion.
June 2023	CT SB 1103	Establishes Connecticut working group to assess the AIBoR to make recommendations on AI state regulation, and to adopt a similar bill of rights for the state.
August 2023	Primer on Approaches to Regulating AI by the National Conference of State Legislatures	Presents an overview of AI policies, including the principles of the AIBoR, for consideration by state legislatures.
August 2023	CA Senate Concurrent Resolution 17	Affirms the CA legislature's commitment to "President Biden's vision for safe AI and the principles outlined in the Blueprint for an AI Bill of Rights."
September 2023	CA Executive Order N-12-23	Orders CA state agencies to issue guidelines on public sector use of generative AI, building on the guidelines put forth in the AIBoR.
September 2023	Veterans Affairs Trustworthy AI Framework	Creates a framework governing the VA's design, development, acquisition, and use of AI that incorporates the principles of the AIBoR.

As of September 20, 2023

BLUEPRINT FOR AN AI BILL OF RIGHTS: MAKING AUTOMATED SYSTEMS WORK FOR THE AMERICAN PEOPLE

The Five Key Principles:
These 5 key principles of the Blueprint for an AI Bill of Rights provide guidance whenever automated systems can meaningfully impact the public's rights, opportunities, or access to critical needs.

1 Safe and effective systems

2 Algorithmic Discrimination Protections

4 Notice and Explanation

3 Data Privacy

5 Human Alternatives, Consideration, and Fallback
